“I still think the LSC intern program is the best way to observe the legislative process firsthand. It gets your foot inside the door and the possibilities are endless. It was my first job after law school, and it was a significant reason for me getting hired at the Ohio Secretary of State’s office.”

Jean Backs
B.S. Natural Resources
The Ohio State University

Jeanne Barrett
B.A. Political Science
University of Cincinnati

“The contacts I made during my LSC internship were invaluable. The internship gave me a bird’s eye view of state government which has been extremely valuable in my career. My career has been diverse: two branches (legislative and executive) and three agencies (OBM, EPA, DOD). I’ve enjoyed this path very much and feel the LSC internship exposed me to things which have helped me make good career decisions.”

“As an LSC intern, I developed invaluable job skills and contacts for a career in state government and public policy. LSC staff, caucus staff, and legislators were very supportive. They provided a lot of career guidance and served as mentors. Year to year the LSC intern program consistently provides both individual participants and LSC a great experience. The most memorable part of the LSC intern program was meeting my husband at the State House!”

“Working within the legislature provides an opportunity to be at the heart of the action, since all state agencies are affected by state statutes. Also, the LSC intern program provides contacts not only within state government but in the private sector as well. It’s a good starting point to find permanent employment.”

“The LSC intern program provided me with the foundation needed to work and interact with legislators, staffers, and other governmental officials. It was also an invaluable opportunity to learn about the real philosophical and practical workings of the government. Most of all, I will never forget the relationships formed with my former interns.”

“I owe most of my success to the LSC intern program and the 15 months I spent coming to work everyday at the State House. Having the opportunity to learn so much about the legislative process and state government was a tremendous privilege.”
