GRF & MEDICAID VARIANCE SUMMARY

- ◆ Through May, total GRF tax receipts were \$503.3 million below estimate, partly due to timing of foreign insurance tax receipts. Including both tax and nontax receipts, state sources as a whole were \$459.8 million below estimate.
- * The personal income tax did not meet expectations again in May; the tax's negative year-to-date (YTD) variance increased by another \$29.7 million to \$231.0 million.
- * Sales & use tax revenue was also below estimate by \$15.7 million in May, further reducing its positive YTD variance from \$30.1 million at the end of April to \$14.5 million at the end of May.
- ◆ Through May, GRF Medicaid expenditures were \$270.8 million below estimate and non-GRF Medicaid expenditures were \$1.97 billion below estimate. A large portion (\$1.06 billion) of the non-GRF Medicaid variance was due to a delay in making certain payments for hospitals.

GRF Sources

- ◆ GRF sources mainly consist of state tax revenue (64%) and federal grants (35%) but also include some state nontax revenue and transfers in.
