Fiscal effect: The requirement related to employee misclassification would increase administrative costs for the Superintendent of Industrial Compliance, a division of the Ohio Department of Commerce, by an uncertain amount. Any increase in such costs would be paid from a newly created fund, the Employee Classification Fund. Any penalties collected by the Superintendent will also be deposited into the Fund. To the extent the requirement related to employee misclassification results in higher employer compliance with the employee misclassification provision, it would result in undetermined revenue gains to the General Revenue Fund (GRF), the State Insurance Fund (which receives workers' compensation premium payments), the Unemployment Compensation Fund, the state's local government funds, and the funds of municipalities and school districts. The magnitude of the revenue gain is undetermined.
